These Precious Days Ann Patchett 2021-11-23 The beloved New York Times bestselling author reflects on home, family, friendships and writing in this deeply personal collection of essays. "The elegance of Patchett's prose is seductive and inviting: with Patchett as a guide, readers will really get to grips with the power of struggles, failures, and triumphs alike." –Publisher's Weekly "Any story that starts will also end." As a writer, Ann Patchett knows what the outcome of her fiction will be. Life, however, often takes turns we do not see coming. Patchett ponders this truth in these wise essays that afford a fresh and intimate look into her mind and heart. At the center of These Precious Days is the title essay, a surprising and moving meditation on an unexpected friendship that explores "what it means to be seen, to find someone with whom you can be your best and most complete self." When Patchett chose an early galley of actor and producer Tom Hanks' short story collection to read one night before bed, she had no idea that this single choice would be life changing. It would introduce her to a remarkable woman-Tom's brilliant assistant Sooki-with whom she would form a profound bond that held monumental consequences for them both. A literary alchemist, Patchett plumbs the depths of her experiences to create gold: engaging and moving pieces that are both self-portrait and landscape, each vibrant with emotion and rich in insight. Turning her writer's eye on her own experiences, she transforms the private into the universal, providing us all a way to look at our own worlds anew, and reminds how fleeting and enigmatic life can be. From the enchantments of Kate DiCamillo's children's books (author of The Beatryce Prophecy) to youthful memories of Paris; the cherished life gifts given by her three fathers to the unexpected influence of Charles Schultz's Snoopy; the expansive vision of Eudora Welty to the importance of knitting, Patchett connects life and art as she illuminates what matters most. Infused with the author's grace, wit, and warmth, the pieces in These Precious Days resonate deep in the soul, leaving an indelible mark-and demonstrate why Ann Patchett is one of the most celebrated writers of our time.

Academic and Professional Writing in an Age of Accountability Shirley Wilson Logan 2018-12-27 What current theoretical frameworks inform academic and professional writing? What does research tell us about the effectiveness of academic and professional writing programs? What do we know about existing best practices? What are the current guidelines and procedures in evaluating a program's effectiveness? What are the possibilities in regard to future research and changes to best practices in these programs in an age of accountability? Editors Shirley Wilson Logan and Wayne H. Slater bring together leading scholars in rhetoric and composition to consider the history, trends, and future of academic and professional writing in higher education through the lens of these five central questions. The first two essays in the book provide a history of the academic and professional writing program at the University of Maryland. Subsequent essays explore successes and challenges in the establishment and development of writing programs at four other major institutions, identify the features of language that facilitate academic and professional communication, look at the ways digital practices in academic and professional writing have shaped how writers compose and respond to texts, and examine the role of assessment in curriculum and pedagogy. An afterword by distinguished rhetoric and composition scholars Jessica Enoch and Scott Wible offers perspectives on the future of academic and professional writing. This collection takes stock of the historical, rhetorical, linguistic, digital, and evaluative aspects of the teaching of writing in higher education. Among the critical issues addressed are how university writing programs were first established and what early challenges they faced, where writing programs were housed and who administered them, how the language backgrounds of composition students inform the way writing is taught, the ways in which current writing technologies create new digital environments, and how student learning and programmatic outcomes should be assessed.

A Rhetoric of Reflection Kathleen Yancey 2016-08-15 Reflection in writing studies is now entering a third generation.

Dating from the 1970s, the first generation of reflection focused on identifying and describing internal cognitive processes assumed to be part of composing. The second generation, operating in both classroom and assessment scenes in the 1990s, developed mechanisms for externalizing reflection, making it visible and thus explicitly available to help writers. Now, a third generation of work in reflection is emerging. As mapped by the contributors to A Rhetoric of Reflection, this iteration of research and practice is taking up new questions in new sites of activity and with new theories. It comprises attention to transfer of writing knowledge and practice, teaching and assessment, portfolios, linguistic and cultural difference, and various media, including print and digital. It conceptualizes conversation as a primary reflective medium, both inside and outside the classroom and for individuals and collectives, and articulates the role that different genres play in hosting reflection. Perhaps most important in the work of this third generation is the identification and increasing appreciation of the epistemic value of reflection, of its ability to help make new meanings, and of its rhetorical power—for both scholars and students. Contributors: Anne Beaufort, Kara Taczak, Liane Robertson, Michael Neal, Heather Ostman, Cathy Leaker, Bruce Horner, Asao B. Inoue, Tyler Richmond, J. Elizabeth Clark, Naomi Silver, Christina Russell McDonald, Pamela Flash, Kevin Roizen, Jeff Sommers, Doug Hesse *All We Can Save* Ayana Elizabeth Johnson 2020-09-22 NATIONAL BESTSELLER • Provocative and illuminating essays from women at the forefront of the climate movement who are harnessing truth, courage, and solutions to lead humanity forward. “A powerful read that fills one with, dare I say . . . hope?”—The New York Times NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SMITHSONIAN MAGAZINE There is a renaissance blooming in the climate movement: leadership that is more characteristically feminine and more faithfully feminist, rooted in compassion, connection, creativity, and collaboration. While it’s clear that women and girls are vital voices and agents of change for this planet, they are too often missing from the proverbial table. More than a problem of bias, it’s a dynamic that sets us up for failure. To change everything, we need everyone. All We Can Save illuminates the expertise and insights of dozens of diverse women leading on climate in the United States—scientists, journalists, farmers, lawyers, teachers, activists, innovators, wonks, and designers, across generations, geographies, and race—and aims to advance a more representative, nuanced, and solution-oriented public conversation on the climate crisis. These women offer a spectrum of ideas and insights for how we can rapidly, radically

reshape society. Intermixing essays with poetry and art, this book is both a balm and a guide for knowing and holding what has been done to the world, while bolstering our resolve never to give up on one another or our collective future. We must summon truth, courage, and solutions to turn away from the brink and toward life-giving possibility. Curated by two climate leaders, the book is a collection and celebration of visionaries who are leading us on a path toward all we can save. Persuasions and Prejudices Irving Louis Horowitz 2016-06-09 Review essays and statements written for special occasions may reveal as much about the writer as those written about; this is the presumption undergirding this collection of thirty-five years of criticism and commentary by Irving Louis Horowitz. For this volume, he selected his comments on famous, near famous, and infamous sociologists, political scientists, and assorted literary figures in between. Taken as a whole, this volume will surprise and delight readers who are acquainted with Horowitz's other works as well as those who are interested in the people he writes about. The book covers notable social scientists, from Arendt to Zetterberg, and such major figures in between as Becker, Bell, de Jouvanel, Mills, Parsons, Solzhenitsyn, and more than eighty others who have had an effect on the contemporary social and political landscape. Each is critically examined, sometimes positively, other times negatively. Horowitz was a major figure in his own right, and his writing here displays the kind of refreshing frankness experts will expect and the general reader will appreciate. The underlying assumption behind the volume, giving its disparate parts a unified characteristic, is that together these observations on others amount to a general perspective on social science held by the author. Whether his larger ambition is accepted or disputed, there is no doubt that the volume provides a standard against which to measure the literary quality of writing in the world of professional social research.

No Ordinary Work Larry Snyder 2021-06-17 With so many church planters seeking to be successful, many of the ways we measure success can lead to personal disappointment, frustration, comparisons, and even depression. This can result in church planters who quit and churches that close even before they really get started, potentially ruining a witness to an entire community. What if we redefined and clarified the biblical metrics for church planting in a way that replaces frustration with fire, and replaces disappointment with direction? What if we stopped the comparisons to steroid growth and replaced them with a better understanding of kingdom growth? In this lighthearted and encouraging book we will highlight each extraordinary aspect to church planting and detail the biblical metrics that can infuse in each planter a better understanding of success.

The Writing Revolution Judith C. Hochman 2017-08-07 "HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

A New Middle Kingdom J. P. Park 2018-09-26 Historians have claimed that when social stability returned to Korea after a series of devastating invasions by the Japanese and Manchus around the turn of the seventeenth century, the late Chos n dynasty was a period of unprecedented economic and cultural renaissance. This book questions this age-old belief by claiming that true-view landscape and genre paintings were most likely adopted to propagandize social harmony under Chos n rule and to justify the status, wealth, and land grabs of the ruling class. This volume also documents the popularity and misunderstanding of art books from China and, most controversially, Korean enthusiasm for artistic programs from Edo Japan, thus challenging academic stereotypes and nationalistic tendencies in scholarship. As the first truly interdisciplinary study of Korean art, A New Middle Kingdom illuminates the reality of the late Chos n society that its visual art attempted hide.
